

# NEIGHBORHOOD ALERT: WHITE POWER MILITANT IN YOUR AREA

*Damian Stanfill*

Your neighbor Damian James Stanfill at 1064 Garner Rd. SW, Unit B in Lilburn is a racist propagandist and a member of the white power group Identity Evropa. (Identity Evropa was renamed earlier this year as the “American Identity Movement”.) Stanfill is organizing from your area against people of color and marginalized communities. We are sending you this information so residents can keep each other safe.

Damian Stanfill organizes with key members of the racist movement in Georgia and even states that “All my friends are local IE [Identity Evropa] guys now”. In his spare time, Stanfill draws comics and posters to recruit for the white nationalist cause.

Stanfill believes the same Jew-hating conspiracy theories that inspired neo-Nazi gunmen to commit murder at synagogues in Pittsburgh, Pennsylvania and Poway, California. In leaked communications from the Identity Evropa organization, Stanfill states that “the J’s [meaning Jews] control A-Z” in society and that antisemitism is a “natural response” to the existence of Jewish people. By promoting antisemitic poison, Stanfill helps create an environment where further massacres become likely.

Stanfill has commented on James Alex Fields, Jr., the white supremacist who murdered Heather Heyer and wounded dozens of others in a vehicular attack against anti-racists during “Unite the Right” in Charlottesville, Virginia, August 2017. Stanfill has criticized Identity Evropa – the racist organization he belongs to – for not vocally defending murderer Fields. Stanfill believes that the white supremacist killer is the true victim.

The “Working Glass Window Cleaning” business in your community is operated by this white nationalist agitator.

See our website for more information on Stanfill. Warn your friends and neighbors. Please get in contact if you have further information on Stanfill’s activities.
